XXVI, NO. 213

GAINESVILLE, FLORIDA, WEDNESDAY, OCTOBER 13, 1909

TEN CENTS A WEEK

HURRICANE SPREAD WRECK IN PATHWAY

West Damaged To Extent \$2,000,000---Martial Proclaimed to Protect People from Vandals.

WEST, Oct. 12.—As a result of the hurricane which struck the coast of Florida Monday Key West is a mass of ruins and the damage to property is estimated at \$2,500,000. Martial law was proclaimed by the mayor and the United States Government has ordered to despatch troops here to assist in patrolling the swept area.

It is known that many have received more or less serious injury and reports are current that several lives have been lost. The storm reached its height at one o'clock Tuesday afternoon, when the wind reached an estimated velocity of 100 miles an hour. There was a hard, steady blow from 8 a. m. to 3 p. m., when the wind began to die down and by 4 o'clock the center of the hurricane had passed this point. The hurricane is the worst that Key West has ever experienced. Of 100 local vessels in the harbor Tuesday morning but five remain at anchor, the others having either gone to sea or been washed upon the

beaches. The streets along the waterfront are a mass of wreckage. Brick as well as frame buildings throughout the city suffered alike from the fury of the heavy wind and many miraculous escapes from death or serious injury have been reported. Besides the several score of residences, either totally wrecked or blown from their pillars, nine factories were partially destroyed, including the Havana-American, Martinez, Nichols, Ruy Lopez, Manuel Lopez, Fleitas Torris, Cortez and Wolf cigar factories. No. 1 and No. 3 engine houses of the fire department were destroyed, the firemen narrowly escaping, but several of the horses being killed. The top of the First National Bank was blown off, the postoffice damaged and two running gears of the Government coaling station were wrecked. Every telephone and electric light pole on Duval street, the principal thoroughfare of the city, were blown down. As soon as the wind had subdued plundering began. The city police force was unable to cope with the situation and the mayor decided to take stringent measures to suppress the looting, his proclamation of martial law resulting. Almost every nationality is represented among the city's population of more than 20,000, about one-half of whom are employed in the cigar manufactories, sponge fisheries and salvage companies.

MIAMI SUFFERS GREATLY.

Houses Unroofed and Branches Being Torn From Trees.

MIAMI, Oct. 12.—The hurricane struck this city about 10 o'clock Monday morning, and continued until about 5 o'clock, when the force of the wind began to lessen. The new March villa, which was under construction, is a complete wreck, the roof of the Masonic Temple was blown off and carried across Avenue D. It is reported that several dwellings in the city lost their roofs, and one or two buildings that were under construction were blown down. All day long the rain fell in torrents, flooding the streets and driving through walls and doing more or less damage to stocks of goods and office furniture. The tide in the river was the highest known for years, blocking the storm sewer so that the water had to run off on the surface. The greatest damage reported is the loss of the March villa. The building was of wood, one part being five and the other four stories high, and was all ready for the plasterers. Take it altogether, the storm was not as hard as the one three years ago.

East Coast Extension All Right.

In its latest summary of the damage wrought by the hurricane The Times-Union says: "Recalling the damage that was done by the gale of 1906, fears were also entertained for the safety of the army of employees engaged in the construction of the extension of the Florida East Coast railway. However, those in charge of the men had been warned of the impending danger and due precaution had been taken. All the employees at Knights Key went to Marathon. The dredge boats, crews, lighters and craft used in the construction work were towed into the harbor at Midway and securely tied up. Late reports from the base of operation indicate that little or no damage was done either to employees or construction work. "The storm caused three washouts just south of Hallandale, on the Florida East Coast railway. These, however, were soon repaired and traffic was resumed." Have your stationery neatly printed at The Sun office. We carry a well-selected stock of the best papers, which are printed at reasonable rates. You may find what you are looking for through a want ad. in The Sun.

WOMAN'S LEGS FOUND IN DRESS SUIT CASE

Were Wrapped In a New Bedford Newspaper of Last Sunday's Date.

TIVERTON, R. I., Oct. 12.—The finding of severed legs of a woman in a dress suit case among some bushes in an outlying section of this town yesterday brought to light what the authorities are convinced is a case of murder. The discovery of a New Bedford newspaper of Sunday's date with the portions of the limbs, is regarded as the most important clue thus far obtained, indicating possibly the place of the murder, if murder there was. The authorities last night were of the opinion that the woman was murdered in New Bedford, that the legs were placed in the suit case there and brought by team or automobile to Tiverton Sunday night. According to the medical examiner, Dr. John Stimson, the supposed murder was committed not more than twelve or fifteen hours before the suit case was discovered. That a murder was committed and that the cutting was not done by the experienced hands of a surgeon or by a medical student, is the belief of the medical examiner, who says that

apparently a common hand-saw was used to sever the legs from the trunk. A search for the other portions of the body in the woods nearby is being made. The body might have lain undiscovered for days had not a rural letter carrier, George Potter, chanced to go to the spot yesterday afternoon. Potter was making his rounds, passing along the road, when he noticed three portions of human legs partly wrapped in newspaper in the case. Later investigation by the medical examiner showed that the suit case contained the upper portion of a right leg, that from the thigh to the knee, and the entire left leg cut in two pieces at the knee. The medical examiner, after taking measurements of the limbs, estimated that the woman (or girl) was probably five feet three inches high and weighed perhaps 120 pounds. A large callous spot on the bottom of the foot indicated that the girl was accustomed to walking much or to standing, and suggested that she may have been a working girl.

Gram Annual Reunion of the Florida Veterans

OAK, Oct. 12.—The nineteenth of the Florida division, United Confederate Veterans, will be held Oak October 20 and 21, at the prominent Confederate from all over the State will here to take part in the program that has already completed, and which is as follows: October Twentieth. Route—March at 3 p. m. west on Duval street to Houston street, south on Houston street to Howard street, east on Howard street to Ohio avenue to Duval street, east on Duval street to auditorium. 8 p. m.—Reception by Daniel Tedder Chapter, United Daughters of the Confederacy, at the auditorium.

Tammany Will Have Hard Time Holding Grip on City

NEW YORK, Oct. 12.—Now that the nominations are made and people are offered for the positions by Tammany and by the Republicans, the impression is strengthened that Tammany will have a hard time to keep the reins of power for another four years. The nomination of Otto T. Bannard by the Republican convention as an entirely new turn in the city, although Lander Murphy is expected to be elected to judge

Gaylor as the head of the Tammany ticket long before Bannard's name was considered a serious possibility, the naming of Bannard made Gaylor's nomination inevitable. It would have meant a Tammany defeat to go into the fight with any such organization candidate as Justice Dowling, the proof of which fact came in the taunt of the far-seeing McCarran in the Carnegie Hall convention the other night. He declared openly from the floor that Tammany was forced to make a year out of deperation.

Items of Interest From Every Section of Country

It is announced that Rear Admiral Melville has solved the turbine gearing problem in an invention which will revolutionize naval architecture. In brief, it is said to mean diminished size and weight of driving power, with increased speed, mean capacity for carrying heavier armor and heavier guns. It is predicted that the first nation to possess vessels of this type will have all other nations at its mercy. Announcement is made of the returns received on the call for bids for buying the old sloop of war "Enterprise," most recently used by the Massachusetts Nautical Training School. The successful bidder was John F. Burke of South Boston, who offered \$11,927. Other bidders were John Hallett of East Boston, \$7,750, and Richard T. Green of Chelsea, \$9,165. It is expected that the new owner will strip the ship and burn her hull for the metal it contains. Six thousand young men connected with the Boston Young Men's Christian Association will be called upon

this week to lend their aid in securing \$1,000,000 for a new association building to be erected on land purchased in 1906 at the corner of Arlington and Boston Public Garden. Probably not in the history of the work of this association in the United States has so large a task been undertaken. For three years the plans have been maturing. The financial panic of 1907 was a severe setback to the project. The plan for a central bank has progressed so rapidly that some of the striking features are becoming public. The outline disclosed provides that its stock shall be sold to the public the same as a Government bond issue. A small interest return is proposed to be guaranteed, any earnings more than sufficient to pay the guaranteed interest being shared by the Government and by the stockholders. This would give it increased hold as an institution reaching the whole nation and add notably to its hold on the people. It is spoken of as President Taft's plan.

Importers of Fruit Have To File Claims in 48 Hours

WASHINGTON, Oct. 12.—Flagrant abuses in fruit importation entailing thousands of dollars of loss to the Government, occurring especially on the docks at New York, are aimed at in regulations proclaimed by Acting Secretary of the Treasury Reynolds and directed to collectors of customs "and all others concerned." The regulations stop importers from delaying for a week or ten days the destruction or injury of fruit imported but not taken from the docks, making it impossible for the authorities to determine what to allow for the deterioration of imports. California fruit raisers took up this question with Congress at the last session, contending that the delays operated to the undue advantage of Italian interests, particularly as to oranges and lemons. The Government is entitled to the duty on the arrival of the fruit, and forty-eight hours is fixed by the department under the drastic circular as to the time within which, after the arrival of the vessel, importers may file their claims for allowances for shortage or nonimportation. Immediately upon notice of these claims the appraisers, under direction of the collectors, will detail one or more examiners to determine promptly the percentage of decay.

WHITE MAN IS FOUND IN HELPLESS CONDITION

HAD BEEN SICK NUMBER OF
DAYS WITHOUT FOOD.

Is Now Being Looked After by Charitably Inclined and Case Is in Charge of Physician.

A. Hall, an aged white man who has been sick for the past several days, was found Tuesday morning near the Electric Light plant, where he had managed to crawl for the purpose of receiving some attention.

The man had been employed up to within a few weeks since on a nearby farm, but he became sick and lay alone for several days in the small cabin that he called home, without food or water, and this came near killing him before assistance could be secured.

As soon as the condition of the man was reported to Marshal Owens he at once secured a mattress and quilt and again placed the old man in his shanty on the south end of West Main street, where nearby friends at once administered to his wants.

No appropriation is made from the city funds for such cases, and it was necessary for the marshal to notify outsiders, when the matter was turned over to Dr. F. P. Bullock, who will draw upon the funds of the charity association, if any exist, but in the meantime he will gladly receive any aid from the public for the afflicted man.

Dr. Carter was sent to the man and did what was necessary for his immediate relief, while S. M. Mixson carried over some soup and will see that he does not suffer for something to eat.

This is only one among many such cases that are often coming to light in this city, and some provision should be made by the council to look after those unfortunates temporarily, for immediate aid is what is generally needed.

The man stated that during Monday night, while it was so cold, he managed to crawl from his place over to the electric light plant, where he received the kindest of attention by the fireman. He had been without food, water or money for the past several days, and had only boards to sleep or rest upon in his cabin.

Dies From Weakness.

Mr. Hall died as a result of weakness, and partial starvation, late Tuesday evening. He remained conscious until the last, a number of gentlemen being with him at the time who had heard of the case and gone to investigate matters.

A nurse was employed in the afternoon, and among the first things given the man was a proper bath, together with some nourishment in the way of soup. This was eaten heartily by the man, and he claimed that it had greatly helped him, but within a few minutes of 6 o'clock it was seen that he was breathing his last.

The man has no relatives in this part of the country that are known of, for he came here some two years ago from the Newberry section. He had always lived a secluded life, taking up in some locality, and with a bare room, a few corn sacks, he managed to exist and called the place home. He gained his living by working on the farms about here and often managed a small crop of his own, which he peddled out among the citizens.

Card of Thanks.

We take this method of thanking our friends and neighbors for the many kind acts to myself and five of my grandchildren during our recent illness with fever. We are deeply grateful and assure them that their acts will not be forgotten.

A. J. COPELAND.

Bell, Fla., Oct. 8th.

For Chapped Skin.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists.

MILLIONS OF LIVES LOST

An Awful Toll Collected by Consumption—Many Unnecessary Deaths From the Disease.

If people could only understand that systemic catarrh is an internal disease that external applications cannot cure, they would not need to be warned so often about this malady, which, when neglected, paves the way of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

Catarrh is caused by a general diseased state of the system which leads commonly to annoying and perhaps serious local conditions, which may prove a fertile breeding ground for germs of consumption. External remedies give but temporary ease.

The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system, so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was a patient restored to health in every case where his treatment was followed as prescribed. That remedy is Rexall Mucu-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not satisfy the user.

We want you to try Rexall Mucu-Tone on our recommendation and guarantee. We are right here where you live, and you do not contract any obligation or risk when you try Rexall Mucu-Tone on our guarantee. We have Rexall Mucu-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50-cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies in Gainesville only at our store—The Rexall Store, J. W. McCollum & Co.

LADIES ARE ACTIVE.

Request Every Woman Interested in Movement to Attend.

We earnestly request that every woman who is interested in the improvement of the schools throughout Alachua county to meet at the residence of Mrs. J. E. Futch, 601 East Church street, on Wednesday afternoon, October 13, at 4 o'clock.

At this time we hope to organize the Alachua County School Improvement Association. This follows from the educational rally which was held here on Friday night at the court house. We know that the enthusiasm shown at that meeting will bring out a large crowd.

The ladies of other States have accomplished so much along this line that we are certain the women of this State and county will be willing to do their best when the plans are shown them.

MRS. J. E. FUTCH, Act. Pres.
MRS. J. A. THACKSTON, Act. Sec.

STREET BEING REPAIRED.

Marshal Owens Is Filling a Long-Needed Public Want.

University street leading to the Seaboard depot, which has been in such bad shape for the past several months, is now being repaired by Marshal Owens.

This thoroughfare is probably traveled more than any other street of the city, but for some time past the washouts and holes made it most disagreeable for vehicles and autos, and realizing the necessity he placed the city team there and is having all of the excavations filled with rock.

GENERAL NEWS IN BRIEF

Aiming to study systems of agricultural instruction in public schools of Wisconsin and other Northern States with the idea of applying them to public schools of the South, a party of superintendents of education of several Southern States will meet at St. Louis October 17th and start on a month's tour of the Middle West.

A few months ago the critics of the aeroplane were talking about how easy it would be to disable it on account of the low range of its flight, but since then Rougier has officially flown to a height of 645 feet and Orville Wright has unofficially risen a distance of 1,622 feet from the ground. Both of the Wrights say that the limit of height as well as length is merely a matter of fuel.

New York University has a novel sort of prize fund, which is to be awarded primarily on a basis of manly character and influence and secondarily for marked scholastic ability. The prize, to be known as the Sherborne Vernon Damerel prize fund, will be awarded on commencement day by vote of the joint faculty to a member of the senior class of the university who has shown an earnest endeavor to his duties and a beneficent influence among his fellows and who gives promise of a useful life.

Michigan has a liquor law so rigid that beside its excise statutes in other States, no matter how stringent, seem lax. An accommodation bartender at Marquette entered a saloon without the knowledge of the proprietor at 11:30 p. m. to write a letter for one or two companions. Judge Stone of that circuit decides that, although the stock in trade of the place was not touched during the writing, the action of the bartender is a crime, punishable by the prescribed penalties for the opening of saloons at prohibited hours.

SCORE BY INNINGS.

Brown House Takes Interest in the Final Contest Now On.

That Joe Ettel of the Brown House is alive to his interests and believes in looking after his guests, was better evidenced when on Tuesday he secured the result of the game between Pittsburg and Detroit by innings.

Quite a large number of the citizens also afforded themselves of the opportunity to visit the place as the game was in progress, and Proprietor Ettel received many compliments from the traveling men for his enterprise in their behalf.

There are few hotels that would have gone to this expense, especially in a city the size of Gainesville, but Mr. Ettel, knowing that his patrons would appreciate the move, readily gave the order to the Western Union to furnish him the service. So popular was the affair on Tuesday that he may continue it until the close of the series between the two clubs.

Detroit won the game yesterday by the score of 5 to 0, both clubs now having won two games each. Three more games remain to be played, unless one of the two should win two successive games.

Following is the score by innings:
Pittsburg .. 0 0 0 0 0 0 0 0 0 0
Detroit 2 0 0 3 0 0 0 0 *—5
Hits—Pittsburg, 5; Detroit, 10.
Errors—Pittsburg, 4; Detroit 0.
Batteries: Detroit, Mullin and Strange; Pittsburg, Liafield, Philippi and Gibson. Philippi took Liafield's place in the box in fifth inning.
Attendance 25,000.

Slightly Colder With Snow.

FLORIDA LIFE INSURANCE COMPANY.

LETTER FROM MRS. PEARCE.

Florida Life Insurance Co.,
Jacksonville, Fla.

Gainesville, Fla., Oct. 2nd, 1909.

Gentlemen: I wish to thank you for your check in the sum of \$5,000.00 which has just been handed me by your District Agent, Mr. B. R. Stripling of Ocala, in full settlement of my claim under Policies No. 2057-8 held by my late husband, Dr. Harry L. Pearce. Proofs of loss were forwarded to your office last night, reaching there this morning, and check in payment issued and forwarded immediately.

The dispatch with which this claim has been handled clearly demonstrates the advantage of dealing with a Home Company, thereby avoiding delays in making settlements.

Dr. Pearce took out these policies less than 19 months ago and at that time was in perfect health. His untimely death forcibly shows the wisdom of securing protection afforded by Life Insurance when in an insurable condition.

Your immediate and satisfactory payment of my claim is very much appreciated, and you have my best wishes for the continued success of the tried and proven, FLORIDA LIFE.

Very respectfully,

(Signed) LYDE BOWERS PEARCE, (Beneficiary.)

The Wrights have not yet been able to make as rapid flights as money.

New York needn't brag about that celebration. The rest of the country paid for it.

France is to have a slow race for aeroplanes. That's an unsportsmanlike way of ruling out America.

How will Mr. Taft ever square himself with the anti-polygamist voters after that speech to the Mormons?

If a "certain party" were not now in Africa spontaneous combustion might supply a theory for that White House fire.

If our prosperity has made us deaf to the calls for aid from Mexican flood sufferers, then national wealth is a shame.

Dr. Cook is having the time of his life "showing" Missouri that the top of the world is some distance from that State.

It is to be hoped that Bryan's daughter will not be compelled to run for Congress as long as her father did for President.

Chicago man killed his wife and himself, rather than work—so he said. Still, it may have been rather than stay in Chicago.

If the atmosphere is full of astral bodies, as Mrs. Annie Besant claims, an airship on a trial flight must cause an awful mortality among the ghosts.

Mountain climbers and explorers looking for more worlds to conquer might start right out with their instruments and observe to what altitude the price of meat is going.

With Pinchot on deck guarding "my pollees," Colonel Roosevelt may conclude that "malefactors of great wealth" will be as good as they can be in the absence of the "boss regulator."

A new cable code is made up of words like "Bazibgehuk." It means approximately, "Have arrived safely. How are the kids?" In the new system Eutukishuk means, "Everybody else is a liar."

The Grady Hospital director is considering the advisability of using an automobile ambulance. Which causes The Atlanta Journal to remark that it is a good idea if it doesn't collide with the fire auto.

A judge has enjoined a woman from worrying her husband at his business by calling him over the telephone. That judge should go higher, says The Atlanta Constitution, for he has discovered an injunction which should be extended.

Sheriff Van Pelt of Escambia county will again attempt to Puritanize the poor people of Pensacola by enforcing the Sunday blue laws. In such a cosmopolitan city as Pensacola such laws are bound to fail of enforcement, for the reason that public sentiment is opposed to them.

NOVEMBER ELECTIONS.

Governors or minor officers will be elected in ten States early in November, the elections occurring on either the second or the sixth of the month. Only a few of them will have importance, however, in a political way. The election in Massachusetts will be interesting, although the element of doubt will not be present to any great extent. This State gave Bryan 155,543 votes, Taft 265,966, Yahey 161,162, and Draper 228,318 in 1908. It is not likely that the Republican majorities will disappear next month. Rhode Island is uncertain enough in these days to make it a fruitful subject of speculation. Taft carried it in 1908 by a majority of 19,000, and Pothier, the Republican candidate for Governor, by 7,000.

Because of the interest which the national administration is taking in the campaign in Maryland and Virginia, these are attracting a great deal of attention. Members of the cabinet, it is announced, will speak in both States. President Taft's utterances with relation to the principal issue in Maryland (a constitutional amendment) having been made in Boston in the first instance, and at the beginning of his present tour, are familiar. The Republican candidate, Kent, is making a strong fight for the Governorship of Virginia. He is an advocate of local option, while his opponent, Mann, is a State-wide prohibitionist. Virginia has been tending toward the doubtful column for some years past. When the full vote is called out the Democrats have not nearly such a large margin as formerly. The present Democratic Governor, Swanson, was elected by a majority of 38,000, but Bryan carried the State by only 30,000 in 1898. At present the liquor issue is leading to a new alignment.

It is worthy of mention and of remembrance that the elections in Maryland and Virginia next month will be the first held in the South since President Taft entered on his policy of conciliation. For this, among other reasons, the result will be looked forward to with great interest.

In naming two "liberal" Republicans on their ticket the Massachusetts Democrats have planned to take advantage of the dissatisfaction among the Republicans with Mr. Aldrich's revision of the tariff. Eugene N. Foss has been nominated for Lieutenant Governor and Harvey N. Shepard for Attorney-General. Mr. Foss was in the forefront of the fight for reciprocity and tariff revision which threatened Henry Cabot Lodge's scholarly control of the organization. He was beaten, but refused to change his principles to suit partisan convenience. In Massachusetts, where national issues figure largely in State campaigns, the "liberal" Republican may have an important bearing on the result of the election next month. That a Republican who has been so active in party affairs as Mr. Foss should consent to run on the Democratic ticket is extremely significant.

If the Hon. Ion L. Farris of Jacksonville receives no more encouragement from the voters than he has from the press in his race for Congress against Hon. Frank Clark, he will not get as many votes as it will cost him dollars to have his name printed on the ticket. Aside from the Ocala papers, whose editors have no vote in this district, Mr. Farris has not received favorable mention from a newspaper in the State—so far as we have seen. Judge Farris stood high with the people of Duval county until he made such a spectacle of himself on the Jacksonville charter bill in the last Legislature, but since then the members of both factions in Duval county have "dropped him like a hot potato."

The "good roads" idea is one that will have an accelerated growth, because when one town gets good roads it makes an imperative reason right then why its rival should.

An experiment is to be tried by the penal authorities of New York. On the shore of Mohansic Lake a novel training school for supposedly incorrigible boys will be established. It will not be a jail, or an institution under severe discipline. Divided into squads, the inmates will live in cottages under the supervision of matrons. They will receive manual training and instruction in light farming. Gymnastics, too, will be a featured course, and pains will be taken to foster communal feeling. In short, an effort will be made to give boys committed what most of them have never had, a home with agreeable surroundings; to start them in happy, healthy life.

An enormous consolidation of public utility corporations is being attempted for Chicago. As outlined it will represent a total capital of nearly \$300,000,000, taking in the surface street car lines, the elevated railroads, the Commonwealth-Edison Co., and subsidiary interests into a corporation that will control the business of local transportation and the production of electric lights and power. Reorganization of the transportation system is proposed.

The business agencies agree completely on a return in the trade of the country to the full normal condition as the last quarter of the year opens. It is a marvellous demonstration of recuperative power.

Another attempt to reach the pole is planned by the Zeppelin society. Is it too much to ask that the promoters recruit the expedition from some deaf-and-dumb institution?

Catarrah Cannot Be Cured
with local applications, as they cannot reach the seat of the disease. Catarrah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrah Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrah. Send for testimonials free.

NEWS FROM ALL
PARTS OF FLORIDA

Lakeland will vote in November to decide whether \$65,000 bonds shall be issued for public improvements.

Putnam county is to have a complete network of hard roads, the bonds for building same having been sold.

Ocala complains of lack of room for the school children. The same complaint is made by nearly every town in Florida of any size.

The Illinois Central railroad will run through trains from Chicago to Jacksonville, this new train to be known as the Seminole Limited. The service will begin November 15.

H. J. Thomas, a well-known farmer, shot and seriously wounded Dr. J. L. Skilworth, a prominent physician of Edenfield, Sumter county, last Saturday. The trouble occurred over a petty account.

Notwithstanding that he has a bank account of over \$1,500, some money found in his clothing and a diamond ring which would easily defray the expense of burial, T. J. Fallon, whose body was recently found floating in the bay at Pensacola, was on Monday buried as a pauper, all efforts of the authorities to find a kinsman who had authority to order a decent burial having failed.

Judge W. M. Ives, county judge of Columbia county, has probably held office longer than any judge in the state of Florida. The Judge was appointed by Governor Drew in 1877. Since then he has won hands down at each election. The Judge has served the people of Columbia faithfully for 32 years and enjoys the confidence and respect of everyone. The prospective candidate for county judge hesitates before going up against Judge Ives, for his political strength is as solid as Gibraltar.—Lake City Index.

Few brides have the distinction of making a trip of fifteen hundred miles to wed their lover, but this was the case with Miss Mattie Stromberg, who arrived from Racine, Wis., this morning. The wedding followed short-

SCOTT & BOWNE, 409 Pearl St., New York

ly after her arrival. Miss Stromberg made the trip unattended, coming from Tampa this morning on the boat. She was met by Mr. Young, and at 11 o'clock City Clerk Divine pronounced the words that made them man and wife. The bride has visited in St. Petersburg, having been here several years ago, when she spent the time with friends. The groom is one of the most successful truckers and orange growers, owning a fine home, embellished with excellent surroundings, located near Maximo. Following the ceremony Mr. and Mrs. Young drove to their home in the country, and will there receive their friends and congratulations from hosts of friends.—St. Petersburg Independent.

BITTEN BY RATTLER.

Capt. Cox of University Suffers Much Pain From the Bite.

Capt. N. H. Cox of the University is confined to his room as the result of having been bitten by a ground rattlesnake, which he took to be among the innocent species of snakes. He was near the T. & J. water tank last week when he came across the reptile, and thinking it one of the kind that was not poisonous picked it up to take to the University. The snake bit him and within a few minutes the left thumb of his hand was green and he became deathly sick, having to be taken to the University by a friend for treatment.

He has suffered much pain as a result of the bite, and while he is out of all danger the bite has caused him no end of trouble, and it was only the quick action of being taken where he could receive treatment that probably saved his life.

WILCOX ITEMS.

WILCOX, Oct. 12.—A number of our young people spent Sunday launch riding on the famous old Suwannee river. Capt. J. H. Sheffield is always ready when at leisure to engineer the launch for the pleasure trips. All report a happy time.

The farmers are preparing to grind cane, and "long sweet'ning" will soon be on the market and many will be glad to taste their batter cakes and biscuit with the delicious vaporation.

Mrs. S. A. Bryan of Starke and daughter, Gertrude, and son, Rolland, visited her son, Walter Bryant, this week. They added to their roll of acquaintance quite a number of friends here.

Mrs. Guy Trammell and sister, Miss Lizzie Collins, are visiting at Trenton this week.

J. S. Painter has purchased a fine span of mules of Oliver & Kite that suits the eye of the tie men, and no doubt others will follow suit.

Seemingly Wilcox merchants are doing a good business, at least a number of drummers visit here frequently.

Imperfect Digestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

The want ads. do more real estate business than all other brokers combined—in fact, they "start" most of the business that the brokers and agents finish.

NEWS FROM TAMPA.

Will Soon Be Connected With St. Petersburg by Trolley.

Special Correspondence Daily Sun.

TAMPA, Fla., Oct. 12.—Work is being rapidly continued on the new Y. M. C. A. building on the corner of Florida avenue and Zack street. It is said that when completed it will be the best equipped building of the kind in the State.

It is rumored that an extension of the Sulphur Springs Traction through Passa Grille to St. Petersburg will be built this winter. Should this be the case Tampa and St. Petersburg will be connected by trolley, which will no doubt be of great benefit to both towns.

The Tampa Business College, under the direction of Prof. L. M. Hutton, has a large attendance this term. Pupils from all over the State are enrolled.

The Mallory Steamship Co. is well patronized. It is estimated that they handle three-quarters of the New York freight that is received in Tampa. The service has been increased.

Sulphur Springs is a very popular resort with Tampa people, and if rumor is correct its attractions will be greatly enhanced in the near future. A well-known capitalist has determined to lay out \$20,000 golf links, together with a very fine race course.

E. J. Suarez, the young saxophone player, is attracting attention by his skillful performance. There is no doubt a great future for him.

Two More Larceny Cases.

Deputy Sheriff Raymond Strickland of Waldo was in the city Tuesday, having come for the purpose of bringing a couple of county prisoners who were convicted in Justice Tillis' court.

Dean Cheatham was given thirty days for larceny, or a fine of \$20 and costs.

Wm. Allen was also up on a charge of larceny and was sentenced to pay a fine of \$50 and costs or spend three months with Rawls & Co.

Both of them failed to have the "necessary," and they will go to the camps near Dunnellen.

CAPUDINE for "THAT HEADACHE."

Out last night? Headache and nervous this morning? Hicks' Capudine just the thing to fit you for business. Clear's the head—braces the nerves. Try it. At drug stores.

The
Big Furniture
Store

See our Dining outfits—they are all to the good. A fine line of Push-Button Morris Chairs, Blankets, Comforts, Pillows. Call at Emporium—get prices, goods.

Gainesville Furniture Co.

Answer
This
Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss. — "Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland. — "Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

FOR SILVER SERVICE.

Board of Trade Takes Action to Secure Funds.

At the suggestion of Mayor Davis, the Gainesville Board of Trade have taken up the matter of raising funds for the purpose of a silver service for the battleship Florida.

Parties desiring to contribute to the fund can notify B. F. Hampton, who is secretary, and the amounts will be credited. Following is the list of contributions up to last night:

B. F. Hampton	\$ 5.00
B. R. Colson	1.00
Childs Warren	1.00
H. S. Chubb	1.00
E. E. Cannon	1.00
I. B. Arnold	1.00
W. R. Thomas	1.00
W. W. Hampton, Jr.	1.00
E. D. Turner	1.00
H. P. Robinson	1.00
R. Harper	1.00
T. W. Shands	1.00
W. H. Anderson	1.00
R. G. Zetrouer	1.00
J. W. Blending	1.00
E. G. Baxter	1.00
Dr. Geo. S. Waldo	1.00
Phifer Bros.	1.00

Geo. K. Broome	1.00
Dr. H. C. Spencer	1.00
Hon. Frank Clark	1.00
Geo. Glass, High Springs	1.00
Chas. A. Marks, Waldo	1.00
B. E. Tallant	1.00
Frank D. Warner	1.00
Lee Graham	1.00

Contributions to the above fund will be received from parties residing at any point in Alachua county.

A Shaking Up

May all be very well so far as the trusts are concerned, but not when it comes to chills and fever and malaria. Quit the quinine and take a real cure—Ballard's Herbine. Contains no harmful drugs and is as certain as taken. If it doesn't cure, you get your money back. Sold by W. M. Johnson.

....CANE GRINDING....

By C. K. McQuarrie, Florida Agri. Experiment Station
Press Bulletin No. 125

When a farmer has been at the expense and trouble of raising a crop of sugar-cane, he wants to get the most out of it he possibly can, and to that end he must have the best appliances he can get for the purpose.

The Cane Mill

The first consideration is the mill. It should be of the most approved style, and capable of getting at least 75 per cent. of the juice from the cane. There are several excellent makes on the market, from a light one-horse mill up. The size should be decided by the amount of cane to grind, but it never pays to get a small mill. The three-roller vertical type gives the best satisfaction.

The location of the mill should be arranged high enough above the position of the evaporator to enable the juice to be run by gravity in a pipe from the straining tub to the evaporator. This saves time, and gives a constant supply of juice ready for the evaporator.

The Foundation of the Mill

The mill must be set on a solid foundation, and this foundation braced in such a way that it will be impossible for the mill to move from position while at work. The best foundation, under ordinary conditions in this State, consists of lightwood posts, not less than fourteen inches in diameter and ten feet long, set in the ground at least five feet deep. The proper setting of these posts is quite important. Holes must be dug for every individual post with a slant towards the center, so that when the mill is set on top of them it will be on a level. Therefore all the holes must be dug to the same depth, with a post-hole digger if possible. We want as small a hole as will take the post, for the smaller the hole the better able we will be to make a solid job of the necessary tamping after the post is in place. In setting these posts so as to get them perfectly solid, sand or soil must be tamped all around each individual post, and plenty of water poured on during the tamping process to help make them solid in their places, so that none of them will move when grinding begins. Then brace them thoroughly from the inside with 2 by 4 scantling material.

Setting the Mill in Position

In setting the mill in position on top of these posts, a good plan is to bolt a couple of pieces of 2 by 6 inch, about 3 feet long, to the base of the mill, and then bolt these pieces to the top of the posts, either by lag screws or set-in bolts. This makes it easier to level up the mill, and helps the solidity of the whole.

If the posts are ten feet long, and are set five feet in the ground, a space of five feet is available for the juice tub and the necessary straining appliances.

Straining the Juice

The first step towards getting a high-grade syrup is the clean and thorough straining of the juice as it leaves the mill spout. A tub made from the half of a syrup barrel answers well for the strainer. A hole should be bored in the side of the tub large enough to admit the end of the juice pipe, and the junction should be made tight so as not to leak. The tub should be placed on a platform to get it up close to the mill spout. A piece of fine wire-cloth should be tacked over the hole at the end of the pipe in the tub, to act as a strainer. This should be fitted on so that it can easily be taken off for cleaning, which will often be necessary. If "black moss" can be had in quantity, an excellent juice filter can be made by filling the tub with it; but it must be renewed several times daily. It can be used over again if it is washed and dried, and then the dust shaken from it. On top of the tub and held in place by a wire hoop, a double thickness of cheese cloth should be used. This will also require to be often renewed. On top of all a piece, about 18 inches square, of ordinary window wire netting should be laid, to catch the rougher parts as the juice runs from the mill spout.

This gives us three strainings and a filtering, which should make the juice clean enough for evaporating.

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now

acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office. Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office.

LOCHLOOSA NOTES.

LOCHLOOSA, Oct. 12.—Mrs. R. J. Tompkins and children of Cross Creek visited relatives here last week.

Miss Alma Watson of Island Grove was visiting in town last week.

Rev. J. B. Sheffield, a traveling Missionary Baptist preacher, has been here for the past week holding a series of meetings. He is a fine preacher, and we are sorry to see him leave.

Mrs. H. V. Cassels and Mrs. A. E. Evans and baby of Island Grove visited here last week, the guests of their parents, Mr. and Mrs. J. N. Hayman.

Mr. Robinson of Ocala was a business visitor to town Saturday.

Capt. R. E. Boswell, S. A. L. superintendent, was in town Saturday looking after the company's interests here.

J. O. Hayman has been very ill with fever for the last few days, but we are glad to know he is improving. Quite a large crowd of the Island Grove people attended preaching here Friday, Saturday and Sunday nights.

G. L. Rowell is up on a visit preparatory to moving from Largo here.

without fear or favor. Give me your support, and you will never have cause to regret it.

CHAS. M. DELL.

The Broom at the Masthead.

There still exists a very old custom among seamen of displaying a broom at the masthead of ships intended to be sold to indicate that they are to be "swept away." The custom originated with the famous Dutch Admiral Tromp, who when he appeared off the English coast hoisted a broom to show his intention of sweeping the English fleet from the sea. The English admiral, replying to this impudent signal, immediately hoisted a horsewhip to the masthead of his ship to show the arrogant Dutchman that he meant to give him a drubbing. For this reason a pennant is oftentimes dubbed "the horsewhip" by seafaring men. Sea lore, of course, is full of symbolism, and the broom is only one of many signs used that have a metaphorical meaning.—London Globe.

Perversity.

"One peculiarity of melancholia," said a specialist, "is that the victim of it actually enjoys the despondency and often doesn't want to be cured. I once told a young woman who had this disease that she must be careful of her digestion and eat nothing fried. After that she tried to eat only fried food. Not only did she insist on having her potatoes and meat fried, but didn't want to eat bread unless it had been fried in a lot of grease."—New York Tribune.

Title Insurance.

Helpless—Do you examine titles, Mr. Lawyer? Lawyer—I do, ma'am. Helpless—Well, this is my fiance, Lord Preservens. I'd like you to examine his title before we get married. I'd hate to get stung—Judge.

Our Town Druggists

say that Painkiller sells the best of any medicine they keep; during the hard times of the past year or two there were none too poor to pay their "quarter" for a bottle of this indispensable family medicine. Be sure and get the genuine. 25c, 35c and 50c bottles.

FEARED TOTAL LOSS OF HAIR

Scalp had been Scaly for Some Time—After an Attack of Typhoid Fever his Hair Began to Fall Out by the Handful—Now It is

THICKER THAN EVER THANKS TO CUTICURA

"About two years ago I was troubled with my head being scaly, like dandruff but heavier—although I wash my head once a week always. It never gave me any trouble such as itching or smarting and I never noticed any falling of the hair. But shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use a dandruff cure to no effect whatever. And I used a quinine preparation quite freely which did no good either. Whether it was the effect of the fever or some scalp disease I don't know, but I had actually lost hope of saving any hair at all. I could brush it off my coat by the handful. It got so bad that I didn't need to comb it any more—in fact I was afraid to. My brother, who had used the Cuticura Remedies with satisfaction, advised me to try them. After using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be and my hair thicker than ever, whereas six months ago I had my mind made up to be bald in a short time. I will have a photograph taken later and send you one. William F. Steese, 5812 Broad St., Pittsburg, Penn., May 7 and 21, '08."

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, assisted when necessary by Cuticura Resolvent (liquid or pills), afford instant relief in the most distressing forms of itching, burning, scaly, crusted humors, eczemas, rashes, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy and permanent cure, in the majority of cases, when all other remedies fail.

Cuticura Soap (25c), Ointment (50c), Resolvent (50c), and Chocolate Coated Pills (25c), are sold throughout the world. Foster Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston. Mailed Free, Cuticura Book on Skin Diseases.

Death of Old Darkey.

Armon Johnson, an old negro who had resided in the LaCrosse section for the past forty-five years, died at his home there on last Friday. He was an industrious and hard-working negro and honest in his dealings.

GAINESVILLE GETS SAME TRAIN SERVICE

THROUGH TRAINS AGAIN TO BE
OPERATED THIS WAY.

Will Prove Great Convenience and at
Same Time Give This City.
More Passenger Service.

Trains Nos. 37 and 38, which are the regular through winter trains that have heretofore run via Gainesville, will again be operated through this city, so Superintendent McArthur informed the reporter on Tuesday.

He stated that while the service would hardly be started before the middle of November, it was now more than probable that all of the present trains would continue as they are, and the two new trains in addition would give Gainesville the best service it has ever enjoyed.

With the two new trains it will give this city a train service of sixteen passenger trains each day in and out of the city, and when the T. & J. company change their schedule and start up their winter business this number will be increased to about twenty.

Superintendent McArthur stated that the night trains which usually pass here about 12:30 and 4 a. m. would leave and arrive about the same time, but the schedule between Jacksonville and St. Petersburg would be shortened some, and that they were placed on to accommodate the through business and that only a small portion of the local business was handled over them, making stops at principal places like Gainesville, Ocala, Leesburg and junctions.

The above news will be hailed with delight by quite a number of the people of Gainesville who have found the night service a great convenience, and it will also save the traveling man a great deal of time in his work throughout this section.

Astronomical.

Some curious and interesting astronomical phenomena are recorded in the old Chinese annals which go back to a great antiquity. In 387 B. C. a light is mentioned without clouds and without stars. This may perhaps refer to a total eclipse of the sun, but if so the eclipse is not mentioned in the Chinese list of eclipses. In the year 141 B. C. it is stated that the sun and moon appeared of a deep red color during five days, a phenomenon which caused great terror among the people. In 74 B. C. it is related that a star as large as the moon appeared and was followed in its motion by several stars of ordinary size. This probably refers to an unusually large bolide, or fire ball. In 38 B. C. a fall of meteoric stones is recorded.

SPITTING NUISANCE.

Hawking and Spitting is Caused by
Catarrh Germs.

If the local authorities want to stop the disgusting habit of spitting mucus on the sidewalks, they had better instruct the people as to the best method of killing the catarrh germs and curing catarrh. You can easily tell by reading the symptoms below whether you have catarrh or not:

Offensive breath, frequent sneezing, discharge from nose, stoppage of the nose, huskiness of voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force.

J. W. McCollum & Co. have a sensible remedy (money back if it fails) for catarrh, called Hyomei, which is a vaporized air so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00, and money back if it doesn't cure. Extra bottles, 50 cents.

"I have tried almost every catarrh cure on the market without benefit. Have been using Hyomei for one week and feel like a new man already."—Wm. V. Goode, Newark, Ohio, June 21, 1909.

MI-ONA Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach troubles or money back. Large bottles, 50 cents. Druggists in all towns.

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some
Gainesville People Know How
to Save It.

Many Gainesville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Gainesville citizen's recommendation:

Mrs. E. H. Walters, 108 N. Oak avenue, Gainesville, Fla., says: "My kidneys were disordered for some time and I could find nothing that would relieve me. I suffered greatly from headaches and was often so dizzy that I could not stand. Seeing Doan's Kidney Pills advertised, I procured a box and began their use. They acted quickly and it was not long before I received relief. I have no hesitation in giving Doan's Kidney Pills my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A Rare Autograph.

"What is the most expensive autograph you ever sold?" inquired the reporter.

"That of Thomas Lynch, Jr.," answered the dealer. The reporter looked perfectly blank. "Never heard of him," he confessed.

"Well, he was a signer of the Declaration of Independence. He signed it as proxy for his father, who was ill at the time. Soon after he went to sea and was never heard of again. Now, autographs of Declaration signers are much sought by collectors. None approach in rarity those of Thomas Lynch, Jr. In fact, so far as I know, there is only one in existence."

"This is attixed to an autograph letter addressed by Lynch to George Washington, which lends it additional value. It was owned at one time by Jared Sparks, president of Harvard college. Subsequently it passed to Thomas Adis Emmet, from whom I bought it for the sum of \$4,000. I sold it to Augustin Daly, who was a keen autograph collector, for \$4,500. Later Emmet repented of letting the autograph go from his possession and secured it from Daly for \$5,250, presenting it afterward to the Lenox Library, New York, where it is now."—Philadelphia Ledger.

The Origin of "Boz."

The origin of "Boz" is known to most readers interested in Dickens. A younger brother of the novelist was known in the family circle as Moses. In facetious allusion to one of the characters in the "Vicar of Wakefield," and this being pronounced in fun through the nose became "Boses" and so "Boz," which Dickens adopted as his early pen name. "Boz," he once wrote, "was a very familiar household word to me long before I was an author, and so I came to adopt it."

Before the real name of "Boz" became well known somebody invented and circulated the following smart epigram:

Who the Dickens "Boz" could be
Puzzled many a curious elf
Till time unveiled the mystery
And "Boz" appeared as Dickens' self.
Hood wrote punningly, but ungrammatically:
Aren't that "ere "Boz" a tip-top feller?
Lots write well, but he writes better.
—London Globe.

If it's worth more to someone else than to you—no matter what it is—a want ad will be a good investment.

If it's printed stationery you want, The Sun office is the place to get it.

The purchase of real estate is indeed "plain sailing" as regards the title, if you have an abstract of it from us.

You'll then be in possession of full and complete facts relative to the property's title—be fully informed as to the soundness of it, etc.

An abstract made here is a FULL, complete, accurate history of the property.

ALACHUA COUNTY ABSTRACT CO.
Gainesville, Florida.

He Was the Same Man.
A prominent merchant of Sheffield recently accosted a gentleman on the street with:

"Good morning, Mr. Johnson. How is coal today?"
"Well," responded the other, "I am not much acquainted with the coal market, but I can ascertain the price if it will accommodate you."
"I beg pardon," laughed the merchant. "I really thought you were Mr. Johnson, the coal dealer. You certainly resemble him."

A few days later the merchant entered a tram car and, seating himself beside a gentleman, exclaimed heartily: "Well, Mr. Johnson, I'm glad to recognize you today. I made a laughable mistake one day last week. I mistook another man for you and, addressing him very familiarly, asked how coal was. He looked amused and replied that he did not know much about coal, but would inquire if it would accommodate me. Then I looked at him and saw that he was a perfect stranger. It really was laughable, Mr. Johnson, but he looked so much like you."

"Yes," responded the gentleman, looking more amused, "and I am that same party again."

The merchant recognizes no more coal dealers.—London Tit-Bits.

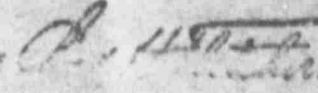

Utter Contempt.

"I s'pose you wouldn't marry me if I were the only man on earth?"

"I wouldn't even be engaged to you," responded the girl. "If you were the only man at a summer resort."—Louisville Courier-Journal.

"Old Stand With New Name"

Worn Women

Women, worn and tired from overwork, need a tonic. That feeling of weakness or helplessness will not leave you of itself. You should take Wine of Cardui, that effectual remedy for the ailments and weaknesses of women. Thousands of women have tried Cardui and write enthusiastically of the great benefit it has been to them. Try it—don't experiment—use this reliable, oft-tried medicine.

TAKE CARDUI

The Woman's Tonic

Mrs. Rena Hare, of Pierce, Fla., tried Cardui and afterward wrote: "I was a sufferer from all sorts of female trouble, had pain in my side and legs, could not sleep, had shortness of breath. I suffered for years, until my husband insisted on my trying Cardui. The first bottle gave me relief and now I am almost well." Try Cardui. 'Twill help you.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell system, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Quaker Oats

is a
perfect food

Extra fine Long Island Irish potatoes just received at Saunders & Earle's.

Seven styles of sardines, from the cheapest to the best, at Saunders & Earle's.

When in doubt just follow the crowd—it will lead you straight to the Brown House.

Armour's Star hams and Swift's Premium hams—the best ever—at Saunders & Earle's.

Cane Juice—We are sending fresh cane juice to any part of the city for only 10 cents quart. Cellon & Chesser.

Dr. and Mrs. H. L. Montgomery, accompanied by Mrs. C. E. Melton, were among the shoppers visiting the city yesterday.

Mrs. L. C. Lynch, who has been absent for the past several months in Balsam and Hendersonville, N. C., returned to her home in this city last night.

Mrs. J. S. Hannon left yesterday for Greenville, Ala., on account of a telegram announcing the serious illness of her daughter, Mrs. C. R. Thrash.

Oliver & Kite will have the fourth car of horses and mules direct from the markets about next Friday or Saturday. Come to see them if you want something nice.

Splendid vaudeville acts at Baird Theatre tonight. Waiman on the violin, and Mlle. Moore on the trapeze. Illustrated songs, motion pictures. Prices, 10 and 20c.

The Earnest Workers Society of the First Presbyterian church will meet this afternoon at 3:30 o'clock at the residence of Mrs. T. P. Hay. Full attendance is requested.

Just in from John Chesnut's farm, fresh country eggs, guaranteed, 35c dozen; sweet potatoes, 20c per peck; fresh meal, from new corn; snap beans and turnip greens fresh every morning. John Chesnut.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all druggists.

Ed Carmichael and Sam Leonard were in the city for a few hours yesterday en route to Columbia county. They were driving Mr. Carmichael's new car and claim that only one short stop was made between Ocala and this city.

Capt. W. W. Pemble, who has been making this city for the past several years in the interest of Devoe's paint, is again in the city. He is now making his home at Leesburg, having built a nice place there during the past summer.

Albertus Vogt, known in this section as the original discoverer of phosphate in Florida, and who is styled by his numerous friends as the "Duke of Dunnellon," was among the visitors here yesterday on business with the U. S. land office.

Congressman Frank Clark left yesterday for Palatka, where he will be absent for the next several days attending the regular session of circuit court for Putnam county and transacting some other business.

Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all druggists.

Waiman, the violinist, and Mlle. Valentine Moore, the trapeze performer, will make their last appearance at the Baird Theatre tonight. See them—they are good in their respective lines. Also illustrated songs and motion pictures.

We have now sent for our fourth car of horses and mules, which will consist of heavy and farm mules, besides nice stylish horses for family driving. You can sure be pleased if you see what we will have to offer here. Oliver & Kite.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all druggists.

Albert Roberson, an employee in the bottling works at Archer, was so severely burned there yesterday by gasoline thrown on him by another employee while working around a fire that he is not expected to live. The fluid was thrown on Roberson in a playful manner.

W. N. Wilson returned yesterday from a short business visit to Lake Weir, where he has been for the purpose of looking after his grove. He will ship a great amount of fruit the coming season, and is not bothered with the white fly, as in some of the other sections.

Hon. J. D. Robinson, mayor of Ocala and one of the most influential men of the Brick City, was in Gainesville yesterday. His city is now forging ahead at a considerable rate, and while they are busily engaged in building granolithic sidewalks over the town they are also putting down vitrified brick on Magnolia street, from the Seaboard depot to the public square.

It is in time of sudden mishap or accident that Chamberlain's Liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In case of sprains, cuts, wounds and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all druggists.

A. E. Bunker, who is a recent arrival to the city and who purchased a home on West Main street, north, left yesterday for his old home to settle up some of his business affairs. It is very probable that he will bring a number of prospectors back here on his return from the North, for already he has a half-dozen or more who have signified their intention of coming to this city to make their home.

St. Elmo at Baird.

At least one play is announced for early presentation in this city which will not come heralded as "One of New York's big successes," the management being content to permit the public to which an appeal for support is made to sit in judgment on the production and to decide for itself the exact need of praise or blame to be measured out to it. Neil Towmey's dramatization of August J. Evans' famous novel of the South, "St. Elmo," is thus announced, and in offering it to Southern audiences an appeal is made to those who must inevitably be its most severe judges in the sense that the play will have to possess unusual merit in order to win commendation. It will of necessity be judged by a public keen to detect any false note in word or in situation, for the dramatist has set himself the task of translating to the stage the work of an author whose life was spent in the South, whose sympathies were Southern and whose entire being was so saturated with the life of the country south of Mason and Dixon's line that inevitably her work breathed of the Southland with that naturalness which rings true and made its strong appeal which resulted in lasting fame. On behalf of the management it may be said that special scenery has been built for the production and a metropolitan cast has been selected for its interpretation and they seem to be making an honest effort to insure a
